PREFACE.

At the solicitation of many business men we were induced to undertake the compilation of a Directory of Augusta, Hallowell and Gardiner, and we herewith present the same to them and the public in general, sincerely hoping the work will prove satisfactory. This being the first work of the kind ever issued here, we have been obliged to compile it entirely from original sources, and have taken great care to make it as correct as possible; yet without doubt errors have crept in, for it would be almost an *impossibility* to make so intricate a work perfect in every particular, as it is often difficult to obtain correct information from many of the great number of persons with whom we have to deal. Future editions will be issued as the wants of the public demand, and in those we hope to be able to improve the present and mark that advancement in population and wealth which rightfully belong to an enterprising community.

Our *Advertising Department* will be found very useful and interesting, as there are to be found the Cards of the *live business men* of the three Cities, which will show the public where the best goods are to be obtained for the least money. We bespeak for them a hearty support and a large trade.

For the patronage so liberally bestowed upon us by the business community, the gentlemanly treatment we have always received from those with whom we have had to deal, and the many favors so cheerfully rendered to us, we tender our sincere thanks and are very grateful.

BOSTON, August 1, 1867.

LANGFORD & CHASE,
PUBLISHERS,
BOSTON, MASS.

Portland & Kennebec R. R.

Passenger trains leave BOSTON daily at 7.30 A. M., and PORTLAND at 1.00 P. M., for all stations on this line, and for Lewiston on the Androscoggin Road, and Pittsfield, Newport and Bangor on the Maine Central Road.

Leave BOSTON daily at 3.00 P. M., and PORTLAND at 8.15 P. M. for Bath and Augusta.

AN EXPRESS TRAIN leaves Augusta daily at 4 P. M. for Boston, connecting at Portland with Evening Express Train, arriving in Boston at 11.00 P. M. *This is the only route East without break of gauge at Portland, and the only route by which a passenger from Boston and stations on the Eastern and Boston & Maine Railroads can certainly reach Skowhegan the same day by railroad.*

With the Through Freight Trains each way, between Portland and Skowhegan, a passenger car is attached, for the accommodation of travellers.

At Portland ample time is made for dinner and supper, in passing to and from Boston.

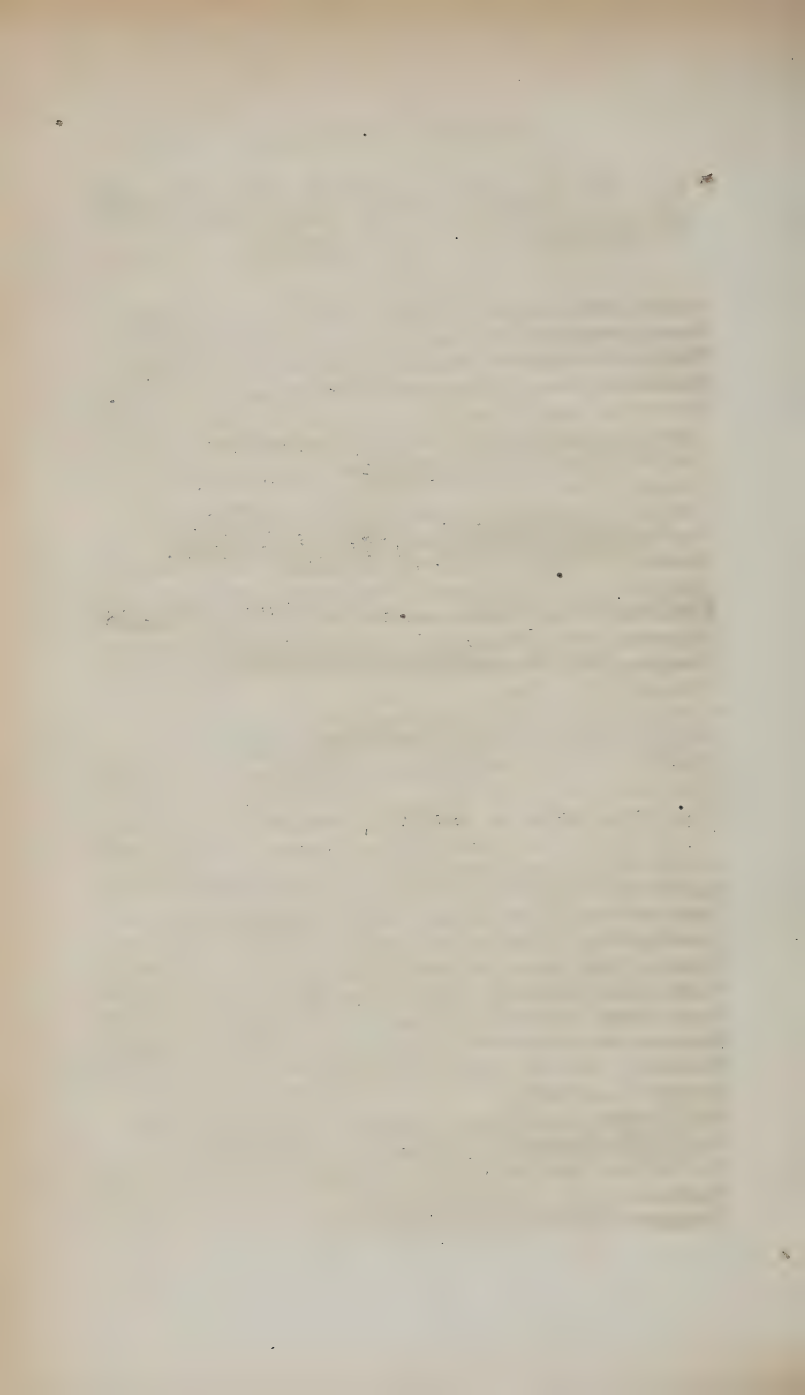

Fare as low by this route to Lewiston, Waterville, Kendall's Mills and Bangor, as by the Maine Central Road; and tickets purchased in Boston for Maine Central stations are good for a passage on this line. PASSENGERS FROM BANGOR, NEWPORT, &c., will purchase tickets to Kendall's Mills only, and after taking the cars of the Portland & Kennebec Road, the Conductor will furnish tickets, and make the fare the same through to Portland or Boston as via the Maine Central Road.

Stages leave Bath, Augusta, Vassalboro', Kendall's Mills and Skowhegan, for the principal towns North and East on their routes.

W. HATCH, *Superintendent.*

INSTITUTIONS.

MAINE INSANE HOSPITAL.

ESTABLISHED 1840. BURNED 1850. REBUILT 1851-2.

OFFICERS :

Dr. Henry M. Harlow, *Supt. and Physician.*

Dr. Bigelow T. Sanborn, *Asst. Physician.*

Jefferson Parsons, Esq., *Steward and Treasurer.*

Maria Johnson, *Matron.*

Rev. C. F. Penney, *Chaplain.*

This Institution is located on the east side of the Kennebec river, about one mile from the city proper, and is a granite structure with a capacity for the accommodation of three hundred patients, and was erected at an expense of about three hundred thousand dollars. Connected with the Asylum is a farm of two hundred and thirty-five acres, which is mainly worked by the patients, and is under a high state of cultivation.

Since its establishment, this Institution has received and treated over three thousand patients, and under the management of its able Superintendent, Dr. Harlow, a large per centage of this number have been wholly or partially restored to health. Besides the Library of three thousand volumes, the donations of Col. Black and Messrs. Vaughan and McClellan, a large number of newspapers and magazines are constantly received for the use of the patients. There is now about two hundred ninety persons receiving the benefits of this Asylum, over one-half of whom are females. The apartments are spacious, airy and substantially finished, and every effort is made for the happiness and advancement of the inmates.

UNITED STATES MILITARY ASYLUM.

Commandant, Maj. Nathan Cutler; *Surgeon*, Dr. Bowman B. Breed.

This Asylum was established by the United States Congress in 1866, for the benefit of wounded and disabled soldiers, at a cost of \$50,000. It is located at Togus Springs, four miles from the city, and has accommodations for 200 persons. There is a farm of 600 acres belonging to the Institution, which is cultivated in part by such soldiers as are able and willing to work. Nearly two hundred maimed and disabled soldiers from all the New England States are now receiving support at this Asylum.

MANUFACTURING COMPANIES.

RICHARDS & CO.

This Firm is engaged in making news and printing paper. They run two Foudrinier machines, one 68, the other 72 inches in width. The pulp is prepared by the use of 15 engines, varying in size of the rolls from 24 to 36 inches. They turn out about 900 tons of white paper a year, or about $3\frac{1}{2}$ tons a day, and consume 2,000 tons of rags annually. In running their furnaces to furnish steam for the bleaching and drying processes, from a thousand to eleven hundred tons of coal are used annually, and 3,000 casks of lime are used in the former process, the quantity of other chemicals, chloride of lime, vitriol, blueing matter, &c., being very large. The value of the annual product of this firm is about \$400,000. They give employment to nearly 100 persons.

COPSECOOK MILL.

H. E. MERRIAM, AGENT.

Manufacture news and book paper. The mill has one Foudrinier machine, 84 inches, or seven feet, in width. The pulp engines are nine in number and are of uniform size, thirty inch rolls being used. About 550 tons a year, or 2 tons a day of paper are made, of the value of about \$175,000. The average number of

hands is 38; 700 tons of coal are consumed; 1,700 casks of lime and other chemicals in proportion. 1,100 tons of rags are used yearly.

STANWOOD, TOWER & CO.

This Firm is engaged in the manufacture of papers made from wood, and used for wrapping paper, mill wrappers and paper-hanging paper. They employ about 15 hands, make $1\frac{1}{2}$ tons of paper a day, or 400 tons a year, worth from \$75,000 to \$100,000 per annum. They use one cylinder machine, of 56 inch width, and two 40 inch, and four 28 inch pulp engines. The paper they manufacture is made of bass wood and manilla stock, of which they use from fifteen to twenty bales of excelsior and 1,000 pounds of hard stock a day. In the production of paper-hanging stock, they use large quantities of rosin, alum, soda ash and other chemicals.

I. N. TUCKER & CO.

Manufacture cassimeres, flannels and satinets. They run four sets of manufacturing cards and two custom cards, employing about 40 hands. The capacity of the mill is about 450 yards of woollen goods a day, and the value of the annual product will not vary much from \$120,000 a year.

SWIFT MANUFACTURING CO.

Manufacture jeweller's boxes of all descriptions,—the little velvet-lined and morocco-covered ring boxes, thimble cases, napkin ring boxes, pen and pencil boxes, and other articles of that description in great numbers. During the past year, they made 100 gross of thimble boxes, 200 gross of ring boxes, 2,000 gross, or 288,000 gold pen and pencil boxes, 500 to 600 gross of "mail boxes," of about the size and shape to send watches and such articles through the mail, 2,000 backgammon boards, ring trays and thimble trays innumerable. They also manufacture toy washboards and clothes horses, 25,000 each of which have been made. The popular hand stereoscopes are made here, but as the manufacture has but just commenced, only about 2,000

have been made; also toy wagons and toy tables of black walnut, 3,000 of the former, and 500 of the latter having been made. The value of these goods manufactured is about \$15,000 for the year. About a dozen hands are employed, girls being chosen for the quick and delicate work of putting the tiny articles together.

MANUFACTURERS OF

Grand, Parlor-Grand, and Square Piano-Fortes !

A GOLD MEDAL was awarded us at the last exhibition of the Massachusetts Charitable Mechanic Association, Boston; also a SILVER Medal, *First Premium*, for Parlor-Grand Piano-Forte; also a Silver Medal for a Very Excellent Square Piano-Forte, and a Silver Medal, *Highest Premium*, for SUPERIOR

WORKMANSHIP. The following are extracts from the Report:

"The Grand Piano-Fortes of Messrs. Hallet, Davis & Co., have many very admirable features. They have a great body of tone, and are specially commended for their fine touch and their beautiful singing quality.

"The Square Piano of the same makers, No. 12,790, was very much admired. It has great fulness, depth and mellowness of tone, and in certain grave styles of music, would probably be unexcelled by any similar instrument on exhibition."

In all, THIRTY-TWO PREMIUMS have been awarded our Pianos,—NINE for Grands and Best Parlor Grands.

Our new Factory (700 Harrison Avenue), with a frontage on 3 streets of nearly 400 feet, and five stories high, is furnished with every modern convenience, and gives us the best of manufacturing facilities.

EVERY INSTRUMENT IS WARRANTED FOR FIVE YEARS.
